# 3.8KVA TRANSFORMER

SPTR

## PROVIDING 110V OR 230V POWER SAFELY TO YOUR WORK AREA

Safe, reliable power is essential, no matter where your operations take you. The new SA POWERNET 3.8kVA PNLT Transformer delivers exactly that. With ATEX certification and a continuous rating of at least 3.8kVA ensuring consistent power, the PNLT won't let you down, even in the most demanding environments.

With continuous operation at temperatures up to +55°C it ensures reliable performance even in extreme heat. Its rugged, stackable design is built to last and can be seamlessly integrated with other SA POWERNET products to create bespoke power solutions tailored to your specific needs. The PNLT also prioritizes safety with built-in MCB protection against overcurrent's and optional RCD protection against electrical leakage, safeguarding both personnel and equipment.
